

I'm glad you found my R2-D2 cube—I hope you enjoy building it! Have you seen the other Star Wars cubes? You can find them on my website, www.KatieCoughran.com

R2-D2 Cube Instructions:

1. Print on Cardstock to make it a little more sturdy
2. Cut along all solid lines. Be careful cutting around R2-D2's **outer** legs. If you don't cut below them, then the cube won't fold properly. **DO NOT** cut below the middle leg as this will detach R2-D2's body, which creates one side of the cube.
3. Fold all tabs down, then fold along dotted lines.
4. This R2-D2 makes an enclosed cube, so, looking at him on the printed side, the **far right box is the lid**. The other three outer boxes and R2-D2's body make the **sides** of the cube. The **center box** will make the bottom of the cube.
5. Tape or glue your cube together, maybe with a little treat or snack inside.
6. Enjoy!
