

I'm glad you found my Yoda cube—I hope you enjoy building it! Have you seen the other Star Wars cubes on my website? You can find them at [www.KatieCoughran.com](http://www.KatieCoughran.com)

**Yoda Cube Instructions:**

1. Print on Cardstock to make it a little more sturdy.
2. Cut along all solid lines.
3. Fold all tabs down, then fold along dotted lines.
4. This Yoda makes an enclosed cube, so, looking at him on the printed side, the **far right box is the lid**. The other three outer boxes and Yoda's body make the **sides** of the cube. The **center box** will make the bottom of the cube.
5. Tape or glue your cube together, maybe with a little treat or snack inside.
6. Enjoy!
